ARON JOSE

Data Engineer
Kochi, India | +91 9074484624 | aronjose63@gmail.com

PROFESSIONAL SUMMARY

Data Engineering professional with 4+ years of total software development experience and a focus on building data pipelines and analytics-ready datasets using Snowflake, SQL, Python,PySpark,Snowpark and dbt. Familiar with AWS S3 for cloud-based data storage and Bronze, Silver, and Gold layers for data processing. Experienced in data transformation, data validation, and preparing structured datasets for analytics and reporting. A full-stack development background in React, React Native, and Node.js provides an understanding of end-to-end application and data workflows.

CORE SKILLS

Data Engineering: Data Engineering Pipelines, Data Warehousing, Medallion Architecture (Bronze/Silver/Gold), Data Qualit, Data Integration, Data Transformation

Data Platforms & Tools: Snowflake,Snowpark dbt,PySpark,PostgreSQL, MySQL, MongoDB

Languages: Python, SQL, JavaScript, HTML, CSS

Full-Stack Development: React.js, React Native, Node.js, Flutter, Tailwind CSS, REST APIs

Methodologies & Tools: Agile/Scrum, JIRA, Confluence, Git, VS Code

PROFESSIONAL EXPERIENCE

Data Engineer | Toobler Technologies, Kochi, India **June 2023 – Present**

Client Project: Enterprise Insurance Data Analytics Platform (UAE-Based Client)

Technologies: AWS S3, Snowflake, dbt, Python, PySpark, SQL,Snowpark.

- Worked on a data analytics platform designed to process and organize insurance-related data from broker and customer domains.
- Assisted in building data pipelines to load raw data from AWS S3 into Snowflake and transform it into structured datasets for reporting and analytics.
- Worked with the Bronze, Silver, and Gold layers of the Medallion Architecture to organize raw, cleaned, and business-ready data.
- Used SQL, Python, PySpark,Snowpark and dbt for data transformation, data validation, and improving data consistency.
- Collaborated with team members to understand data requirements, troubleshoot pipeline issues, and maintain data quality standards.

Full Stack Developer | Innovature, Kochi, India **October 2021 – June 2023**

- Developed and shipped cross-platform applications using React.js, React Native, Flutter, and Node.js across construction site management, social/dating, and e-commerce domains.
- Built responsive, production-ready web and mobile UI, including CRUD workflows and real-time communication features using Socket.io.
- Implemented state management and API integration using Redux/Rematch, Dio, and Axios, and built backend functionality with MySQL and REST APIs.
- Owned end-to-end application functionality from database design through frontend delivery, collaborating cross-functionally to meet product requirements.

EDUCATION

- Master of Computer Applications (MCA)
- Bachelor of Science in Mathematics
